## **Hot Tip: Attention-Deficit Hyperactivity Disorder**

Your Healthy Blue patients on non-preferred products may experience a pharmacy claim rejection if certain requirements are not met. Consider prescribing preferred products to help avoid additional steps or delays at the pharmacy. *Clinical Criteria* may need to be met for certain preferred products. Coverage should be verified by reviewing the *Preferred Drug List* on the Healthy Blue provider website [provider.healthybluenc.com](https://provider.healthybluenc.com). The *Preferred Drug List* is subject to change quarterly and at the Department's discretion.

Non-preferred attention-deficit hyperactivity disorder (ADHD) products require trial and failure of two preferred drugs to be approved.

Preferred products	Non-preferred products
Aptensio XR capsule	Methylphenidate ER capsule <i>Generic for Aptensio XR</i>
Adderall XR capsule Amphetamine salt combo XR capsule <i>Generic for Adderall XR</i>	Strattera capsule
