Hot Tip: Medication Assisted Treatment (MAT) for Opioid Use Disorder

Your Healthy Blue patients on non-preferred products may experience a pharmacy claim rejection if specific requirements are not met. Please consider prescribing preferred products whenever possible, to avoid additional steps or delays at the pharmacy. *Clinical Criteria* may need to be met for certain preferred products. Coverage should be verified by reviewing the *Preferred Drug List* on the Healthy Blue provider website: provider.healthybluenc.com. The *Preferred Drug List* is subject to change biannually and at the Department's discretion.

Non-preferred MAT products require trial and failure of Suboxone SL film or buprenorphine/naloxone SL tablet to be approved.

Preferred products	Non-preferred products
Buprenorphine-Naloxone SL tablet ¹ <i>Generic for Suboxone</i>	Buprenorphine-Naloxone SL film ¹ <i>Generic for Suboxone</i>
Suboxone SL film ¹	Buprenorphine SL tablet <i>Generic for Subutex</i>
Sublocade ²	Lucemyra tablet ³
	Zubsolv tablet SL
¹ Maximum daily dose of [24 mg/day (Suboxone and buprenorphine/naloxone). For daily doses between 24 mg and up to 32 mg], a pharmacist may override the edit at point-of-sale after consulting the prescriber to determine the clinical need for the higher dose. ² For coverage of Sublocade, must have a diagnosis of moderate to severe opioid use disorder and have initiated treatment with a transmucosal buprenorphine-containing product followed by a dose adjustment period for a minimum of seven days. ³ Individuals with a diagnosis of opioid withdrawal symptoms are exempt from non-preferred requirements.
